

Bacillus megaterium protoplasts, strain WH320

Product Information Sheet
BMEG02

SUMMARY

shipped on dry ice; store at -80 °C

For research use only!

Product Description and Application

- *Bacillus megaterium* protoplasts, strain WH320. Host strain for *Bacillus megaterium* gene expression systems

For handling carefully read the handbook supplied with the gene expression system. Care must be taken not to interrupt the cooling chain. Always store frozen protoplasts at -80 °C or lower.

Genotype

- n/a – WH320 is a chemical mutant of DSM319, lacZ⁻ (Rygus T, Hillen W.: Inducible high-level expression of heterologous genes in *Bacillus megaterium* using the regulatory elements of the xylose-utilization operon, Appl. Microbiol. Biotechnol. (1991), 35, 594-599)

Contents

- 5x500 µl ready-to-use protoplasts
